THE DOCUMENT COMPANY

XEROX®

Our single-pass print technology has revolutionized color printing in the office. It's what drives the Phaser 6200 color laser printer to stunning new heights in speed and image quality. And makes it the easiest to use color laser printer ever built. With intelligent work-saving features and an economical price, the Phaser 6200 is a very smart choice for your office.

Phaser 6200 Color Laser Printer

image quality that gets you noticed

The Phaser 6200 laser print quality is fine-tuned to make you look good. Every element on your page – charts, text and photos – comes to life and communicates more effectively.

- 2400 dpi and true Adobe® PostScript® 3™ makes your point with crisp, clean text and precise detailing. Image-enhancing Photo mode is available for stunning scanned images and photographs.
- Automatic, behind-the-scenes color matching helps the Phaser 6200 print colors more closely matching what you see on your screen.
- The single-pass print system delivers pin-point color registration, improving each page. Then adaptive calibration keeps colors pure and true over long print runs. Your corporate colors are the same from Monday's first proposal to the last memo on Friday night.

Phaser® 6200

Color Laser Printer

time-saving intelligence

When you connect a 6200 to your network, you can take advantage of Xerox CentreWare software. It provides quick and convenient access to a wealth of features, including printer and job status, in depth accounting information, email alerts, simplified printer installation and network administration.

Phaser installer makes installation a simple one-click process.

Dynamic driver interface provides real time printer status, automatically selects the correct tray, and learns office application settings.

Printer administrators will benefit from **CentreWare IS Embedded Web Server** to manage printers from anywhere using a web browser.

Instant pop-up messages appear on your monitor if any roadblocks arise during your print job, thanks to enhanced **PrintingScout**.

The smart 6200 can even trouble-shoot on its own. It has onboard **PhaserSMART**, a unique internet-based automated support system.

flexible paper handling

Reliable paper handling is a fine-tuned science at Xerox. You'll see the difference with the 6200's streamlined paper path and ability to feed a wide variety of media.

Use the 100-sheet multi-purpose tray for heavy paper up to 80 lb cover (216 gsm), envelopes, labels, business cards and other specialty projects.

Money-saving duplex option for fast two-sided printing.

The standard 500 sheet paper tray feeds 17 – 28 lb bond (64 – 105 gsm) and transparencies.

A high-capacity feeder, standard on our most productive configuration, adds 1000 sheets of input capacity for a total of 1600 sheets.

the speed you need

Stay ahead of the business at hand with top speed printing. Efficient single-pass printing technology along with our powerful 500 MHz processor make the Phaser 6200 the ideal color printer for fast-paced offices.

- 16 ppm for the highest resolution color or for black only, because all colors are laid down in one pass for increased speed and precision.
- Driven by our fastest processor ever, a PowerPC processor running at 500 MHz, the 6200 powers through even the most complex jobs. Upgrade all the way to 512 MB RAM and add the available hard drive (10 GB minimum) when your print needs get really brutal.
- 15 seconds to your first page puts you pages ahead before the competition even gets started.
- With instant wake-up, the 6200 comes out of sleep mode—and even “off mode”—in seconds.

easiest to use color laser printer

The 6200 is designed to be the best fit for your office. The result is easy toner loading, uncomplicated operation, and trouble-free printing while working seamlessly in any network environment.

- Printer installation is literally a one-click process. And printer management is very intuitive for new users while providing a wealth of advanced features for network administrators.
- Toners come preloaded. And when they need to be replaced, just open the visible, easy-access compartment at the top of the printer.
- The space-saving design is all business, so the 6200 can fit conveniently where it is needed.
- A high duty cycle of up to 60,000 pages/month ensures plenty of muscle for inhouse production printing as either a standalone or networked printer.
- Your investment is backed by world-class service and support, a 1-year on-site warranty and the unmatched Xerox Total Satisfaction Guarantee.
